C. W. L. Will Hold Bake Sale

The C. W. L. are holding a bake sale on Saturday evening July 27th at 7.30 in W. C. Hoskins' store. Buy home made cooking when you have the chance, avoid baking this hot weather.

Local and General

Mrs. Theriault was in town on Tuesday.

Mrs. T. Gill is visiting her daughter in Edmonton.

Mrs. James, of Lethbridge is the guest of Mrs. C. Williamson.

Born—On Friday, July 19th, to Mr. and Mrs. Henry Busch, a daughter.

Mr. and Mrs. W. Harris and Dorothy Coe spent last week at Waterton lakes.

The habit contracted a few years ago of looking for clouds has broken out again.

Lethbridge held a successful fair this year, exhibits and attendance being very satisfactory.

The soft ball flurry which developed in the early part of the summer seems to be dying out.

Headens promise to be in considerable demand this fall for cutting short crops on stubble land.

Messrs. Boss, H. Stephenson and Porpette returned from a fishing trip to Willow Creek on Tuesday.

Perhaps your last and only chance to see "Uncle Tom's Cabin" this Saturday night. It's Big.

Mrs. I. Fisher and two children left for Browning, Mont., where they will visit Mr. and Mrs. R. Starr.

Mr. and Mrs. G. A. Manhard left on Tuesday for Blackfalds on a visit to their daughter. It should rain shortly.

Lost—A bathing suit. Finder will be suitably rewarded upon returning to G. A. Orr at the postoffice.

Mr. and Mrs. P. O. Sommers returned from Edmonton, where they took in the fair and visited relatives.

The Champion oil well is now down over 1900 feet with casing run to 1875 feet. Drilling is proceeding rapidly.

A real cloudy day or two would be acceptable as change these days. A real rain would naturally be a godsend.

Horse shoe pitching is becoming a feature of sports programs all over the country, and is proving a decided attraction.

Geo. Campbell and C. E. Anderson left for Willow Creek on Wednesday with two carloads of boys who will camp there.

Of course you have seen "Uncle Tom's Cabin," but never as big a show as your local theatre will show you this Saturday night.

Found—On road between Howard Smith's and town a lady's purse. Owner can have same by applying to O. V. Hickman, Reid Hill and paying for this advt.

The Old Timers' dance on Friday evening was a decided success despite an evening so warm that dancing must have been an effort. The Red Bird orchestra, from Vulcan, supplied very satisfactory music and the Women's Institute served appetizing refreshments.

The Carmangay Annual Fair

The 9th annual fair of the Carmangay Agricultural Society is scheduled for August 8th and 9th. Last year the Women's Institute made a community exhibit at this fair which won favorable comment from everyone concerned and this exhibit is to be repeated this year. Naturally the purpose of the Society in offering prizes for community exhibits is to stimulate individual exhibits from the same source as the community exhibit, and all those who contribute to the community exhibit are urged to also make individual exhibits this year. Last year's exhibit was a highly creditable one to the district and accompanied this year by individual entries cannot fail to be beneficial to the district in every way. The programme at the fair includes baseball, athletic events and a horse shoe pitching contest, which will vary the entertainment sufficiently to justify a large attendance from here. Make it a point to exhibit your produce and also attend the fair.

The New Highway

For some time it has been rumored that an effort was being made to divert the proposed highway along this line of railway so that it would pass one and one half miles east of Champion, which would result in isolating the second largest town on proposed highway. The proposal was so bizarre that it was not deemed worthy of attention with the entire project so far in the future, but recent developments would indicate that the proposal to move the road east is meeting with support from farmers who would reap supposed benefits from having the road a mile or two nearer their farms. There is no reason to believe that either party to the building of this road, the Provincial Government or the Municipal District of Harmony, would in the end agree to the isolation of the natural market town for so many people in order to promote the selfish interests of a few, no matter what pressure was brought to bear. If this road project was capable of manipulation by every municipality through which it passed for local purposes, at the sacrifice of other interests fully more important, the result would be a monument to the inefficiency of all concerned in its building.

This highway is not being built as a market road for the municipalities through which it passes but as a trunk line from Aldersyde to Lethbridge. It should follow the railway as closely as possible, touching every civilised point where natural conditions were not a barrier, as more people can be served in this way than by any other method, and most people wish to go through the towns on their line of travel. To manipulate its course for individual or corporate interests is beyond consideration by any responsible person. The people of Champion wish to see this road pass through the town, just as they wish it to pass through other towns in its course, otherwise its usefulness would be curtailed to all. The originators of the proposition to isolate this town will find they have overreached themselves by the very absurdity of their proposal, and the movement is far from creditable either to their sense of fairness or their ingenuity.

Guy Walker of Reid Hill sold four ears of wheat on the basis of \$1.74 for 1 northern. This is waiting for the price with a vengeance and securing results. Mr. Walker states this year's crop is looking well with the exception of oats sowed on stubble.

Born—On Monday, July 15th, to Mr. and Mrs. Lee Smith, a son.

NOTES AND COMMENT.

Russia and China are now at loggerheads. Some people would rather fight than eat.

Aviators still continue to make records, both in flying and falling.

Great Britain is alarmed at the short Canadian crop. Bread is going up in price and the end is not yet.

Argentine crops are also suffering from drought and the yield of wheat will be small.

High prices will result in the profitable harvesting of wheat this year that would not have paid a year ago.

Saturday's wind storm was a humdinger. Fortunately the day was not as warm as previous ones had been.

There will be less need of outside labor this year for harvesting purposes and more of the money realized on the crop will stay at home.

The dry weather will curtail fair exhibits in many lines of produce, particularly vegetables, which are not nearly so far advanced as last year.

Central Alberta is forced to reduce its live stock owing to crop failure and lack of feed. That is one contingency we are spared this year.

Make an effort to show something at the fair and also attend and see what other people are producing. Comparisons may be odious in some instances but they are usually enlightening.

As a progressive institution the fair deserves the support of every individual in the fair district, not only in exhibits but by attendance and assimilation of the possible knowledge to be gained.

In the first five months of this year 100,808 automobiles were manufactured in Canada, an increase of 70,000 over the corresponding period a year ago.

Oil in quantity as the result of drilling operations now in progress is a very hopeful thing to look forward to and all the indications are favorable.

The district has settled down to the possibility of no more rain to benefit the present crop. Even at that there will be a lot of wheat, and where it is very short the combines will save it.

This year the combine will be king of the harvest field. While a lot of the grain is plenty high enough for the binder there is a great deal of it that could only be handled

successfully by the combine.

Alberta's wheat crop is estimated at 80,000,000 bushels, one half last year's crop by the manager of the National Elevator Co. after a trip around the province. No wonder wheat is high in price.

In the rainy year it is hard on the irrigation farmers to swallow their water charges, but when the precipitation tapers off there is a great satisfaction in being able to turn on the water and bring along the forage and crops.—Market Examiner.

To Protect Growing Cabbage

Dusting with arsenate of lead and hydrated lime, mixed one part of the poison with eight parts of lime and dusted on the cabbage late in the evening is highly recommended to prevent damage to cabbage by caterpillars and other insects, and if the plants require treatment shortly before marketing pyrethrum powder one part to three parts of hydrated lime, this latter preparation being non-poisonous to humans. In the early stages, however, paris green used freely will be found hard to beat.

The baby chick industry has grown to such an extent in Canada that the Department of Agriculture has taken action to safeguard the interests of the buyers of day-old birds. From a small beginning a few years ago the industry has already reached enormous proportions and the number of chicks sold each spring runs into the millions. The Department now provides a guarantee that a farmer buying chicks from an approved hatchery may rest assured that the stock from which the hatching eggs come conforms to a high standard of excellence, and that the hatchery in

"Sleep Insurance"

Hundreds of sensitive little coil springs buried between layers of pure new cotton are permanently attached to the firm pocket edge created by Simmons and found only on Beautyrest; ventilated sidealls. Rich jacquard Damask now cover the new Beautyrest.

YEARS ago the Simmons Company—world's largest makers of Beds, Springs and Mattresses, began experimenting to find out what qualities were most desirable in a mattress.

The Famous "Beautyrest" is the result

A center core of finely tempered springs forms a buoyant, flexible support for the body. Each spring is permanently anchored in its own pocket—each is independent of the others in its action, following the outline of the body, never bunching, never sagging—but supporting, resting, inducing a sound, restful sleep.

Covering the center core are soft, fleecy layers of finest cotton—while rich new jacquard damask covers add the final touch, making the Beautyrest the ultimate in comfort and beauty.

If you've never slept on a Beautyrest, you've never known complete relaxation.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four who visit Blackie Joe, night club in downtown New York. Al Stone, Blackie's chief comedian and singing waiter, begs Molly, the ballad singer, to render a love song he has just written for her. Molly is disdainful and refuses even to read the song. Al is in love with her but she tells him harshly that she will never marry a waiter. Grace, her dressing room and goes to the Marcus table, trying to ingratiate herself with the famous producer. Al is in despair. Grace, the cigarette girl, who loves Al and wants to see him happy, asks him what is the matter.

CHAPTER V

"Nothing's the matter, kid," said Al, making a show of throwing off his depression. But his smile belied his words.

Grace gazed hopefully up into his face. Her expression said plainly that if he would only confide in her she was sure she could help him.

Slowly he studied her young, sensitive features. She was a sweetly sweet kid, undoubtedly, and she liked her, but—

At that moment someone else arrived to interrupt his thoughts. Blackie, all excitement, entered the corridor, calling out:

"Get ready Al—your's on next!"

Al turned back-tire eyes toward Blackie. Then, suddenly, a plan that had been forming vaguely in his mind ever since Molly's harsh exit, took definite shape. He drew himself up and said quietly to Grace: "Blackie, I'm quitting tonight."

Blackie retreated a step as if he had been struck, while a little cry of amazement escaped Grace. Her hand went to her mouth in a gesture of apprehension. Blackie was the first to recover himself.

"Don't be a fool, Al," he said earnestly, putting a hand on his singing waiter's shoulder. "You've got a good job here and a following among the customers. You can't quit off-hand like this—why, it wouldn't be fair to me or to yourself."

Al nodded slowly. Yes, he had thought of that. But there were other things to be considered.

"You won't miss me," he suggested.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a boy—my baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMillan, Vassar, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1795

Molly and you feel it. If you go out there and forget yourself, and sing it at her, you can make her feel it. Take a chance—they can't kill you. If the song goes over she'll understand the first time how you really feel about her. Look what you stand to win!"

Al stared into the earnest eyes of Blackie, almost convinced. Could he do it, could he put the same feeling into his singing that had possessed him when he wrote the song? If he could, he might be able to touch Molly's heart, as Blackie suggested.

Little Grace watched anxiously the play of expression on Al's face. She saw clearly what Blackie was doing at before Al saw it, and she hoped desperately that he could prevail on Al to try the song. If the words touched Molly's heart at least Al would be happy, which would make Grace happy.

"I'll do it," he said finally, with a gesture of decision. "I'll show her I'm something better than a waiter. I'll put everything I have into that song."

Blackie wrung his hands. "Go to it, boy," he said enthusiastically. "You'd better make your entrance as soon as you can—while you're in the mood. Meanwhile, I'll see how the song goes."

When Blackie disappeared Grace also vanished down the corridor. But as Al came out into the main room a moment later he heard his name called. Grace slipped over to his side, looked up into his face with a forced, wistful smile and whispered:

"I'll be rooting for you, Al!"

"Will you, kid? Say, I appreciate it."

He raised his hand, patting her lightly on the cheek, as he would have caressed a sister. He noticed that her cheek was too warm, but he thought it was merely from excitement.

As he turned nervously away Grace raised her hand to her face, where his hand had rested for an all too brief moment. The spot was burning. She saw him move lightly across the room and approach the pianist to give him the new music.

The pianist's mouth opened in astonishment at the idea of Al Stone, the comic, singing a heart song. Then Grace saw the man she loved heading for another woman. Would he do it over?

(To Be Continued.)

The New Discovery

American Chemical Society Told Gasoline Can Be Made From Trees

Trees

Gasoline made from trees is announced in a report to the American Chemical Society by Dr. Jacques C. Morrill and Dr. Gustav Ekloff of Chicago.

They have produced an anti-knock motor fuel from the tar in the Douglas fir. When this fuel is in use, laboratory stage, the report says it can be made in commercial quantities from present wood waste.

"The development of a practical and economic means of converting wood waste into motor fuels," says the report, "has a deeper significance than the immediately important factor of conservation—it provides a source of motor fuels for the future which is under the direct control of man."

Our great storehouses of potential motor fuel from petroleum, coal and oil shales are nearing depletion. While wood trees and other vegetables are producible under controlled conditions.

Approximately 24 per cent. of the standing tree is converted into useful products, while 76 per cent. is wasted.

Want Wood Pulp?

A petition signed by 17,500 women voters of the district of Boston, asking the House of Commons to use all possible efforts to secure world peace by the fullest use of the Kellogg pact and the optional clause of the compulsory arbitration agreement, has been presented to the House by Albert Lewis, Labor leader.

Brick Yard For Prince Albert

It is reported that the International Clay Products Company, of Estevan, have purchased property in Prince Albert with the intention of making bricks there.

Dandruff

Rub Nair's into your scalp four times a week. Prevents falling hair.

MARRIAGE

"No, I've never tried one on the floor," Al admitted, "but I've tried rehearsing them and I was an awful flop."

"Yes, but don't you see, this is different. You wrote this song for

New Invention a Success

Pittsburgh Has First Aluminum Street Car in World

Pittsburgh has the first aluminum street car in the world. This car, as either the Pittsburgh Railway Company, or the Aluminum Company of America will say, has the formal title of the new lightweight aluminum car No. 6002.

This innovation in car building made its first trip through the Pittsburgh and Southside districts. The car is built for vision—for the passengers. It has windows without the usual paneled obstructions and those same windows can be raised or lowered at leisure in the passenger case and the same sort of gadget as an automobile's.

The vehicle was built with special attention to speed, comfort and safety. The seats are form-fitting and one can recline in ease in them. The floor is a non-slip composition. The lights are subdued, arranged so as to give their rays almost directly.

New Air Base Established

Mineral Exploration Company Will Make Headquarters At Sioux

London

The Northern Aerial Mineral Exploration Company have decided to make Sioux Lookout, situated on the main line of the Canadian National Railways, their headquarters for operations in the Patricia District, and to make it a base for their operations. The camp site on the lake front has been laid out, which will be the nucleus of a modern village with all conveniences. It will contain shipways, hangars, offices, machine shops, and assay office. Sioux Lookout is a scene of most active engineering and scouts for the chief mining concerns are establishing headquarters at this point for the season's activities. They include the Mining Corporation, Albia Exploration, Nipissing, Huronian Belt, and Landley and Connell interests.

Minard's Lament for Neuralgia.

Reduction In Canada's Debt

Net Debt Of Dominion Decreased By \$92,620,132 Last Year

The net debt of the Dominion of Canada decreased by \$92,620,132 in the twelve months ended June 30 last, according to figures set out through the finance department. At the end of June, 1928, the net debt stood at \$2,243,142,237. During the last three months of the present fiscal year, which are covered by the statement issued, the ordinary revenue of the Dominion showed an increase of \$13,929,152, over the corresponding period a year ago. The increase in ordinary expenditure is shown as \$591,206. The statement represents only the receipts and payments which have passed through the books of the finance department up to the last day of June.

Fresh Supplies In Demand.

Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes it creates an impressive interest in the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable form in bottles and can be carried without fear of breaking.

Edmonton Soap Factory

It is reported that a soap factory will be opened in Edmonton shortly by United States interests and will employ about seventy-five people. J. C. Moore, Calgary, is the managing director and he is reported as stating that the present negotiations are pending for the purchase of a plant and site, also that machinery and supplies are now in transit.

Government To Aid Berry Growers

"The B.C. Government has undertaken to assist berry growers to preserve their surplus crop of the 1929 season and is advancing a loan to a company to be known as Berry Processors Limited, which will have plants at Victoria, New Westminster and Hazelton.

The up-and-coming man is pretty likely to succeed, unless he is up of four and just coming home.

Something In Weather Cycles

Records Show Seasons Have Practically Followed Same Course

Looking back over weather records makes one believe, says an English writer, that there really may be something in the unproven theory of a ten-to-twelve year cycle of weather over Western Europe. There was a spell of hard winter in 1860, another in 1906, a third in 1916, and now we are having a fourth in 1928. The summers, too, have followed more or less the same course. But why should sun-spots affect only Western Europe? Must not the influence of the Atlantic Ocean be taken into the account?

Rebukes Cameraman

Colonel Lindbergh Did Not Like His Dishonest Method

Col. Charles A. Lindbergh delivered a lecture at San Francisco on honesty and integrity. The colonel, whose aversion to sound reels is well known, was approached by a "talkie" cameraman, who had a microphone concealed under his sweater. The flyer detected the ruse and said: "That's not honest; why don't you approach me with the microphone in plain sight? That would be the honest thing to do." He refused to talk for the "talkie," because you have not been fair in this matter."

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera, indigestion, diarrhoea, dysentery, colic and stomach troubles are a part of the summer season. The use of the Tablets prevents stomach and bowel trouble, or if trouble comes suddenly—all general ailments—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

The baby chick industry has taken action to safeguard the interests of the buyers of day-old birds. From a small beginning a few years ago the industry has already reached enormous proportions, and the number of chicks sold each year runs into the millions. The Department now provides a guarantee that a farmer buying chicks from an approved hatchery may rest assured that the stock from which the hatching eggs came conforms to a high standard of excellence, and that the hatchery in which the chicks were incubated was clean, sanitary, and well conducted.

"The eternal God is thy refuge, and underneath are the everlasting arms."—Deut. xxxiii, 27.

What thought of you be rough and long? What thought we stumble as the blind? There's joy reserved for those who walk with God.

What matters it if sorrow come? What thought the night be dark and long? The darkest cloud but hides the sun: The earliest dawn is more strong.

Our great purpose in all affliction is to bring us down to the "Everlasting Arms." Most strength and peace it gives us to feel them underneath. We know that as we may have sunk, we cannot go any further. Those mighty arms can not be held up, they can lift us. They can carry us along. Faith, in its essence, is simply a resting on the everlasting arms.—Theodore L. Taylor.

WORLD HAPPENINGS
BRIEFLY TOLD

Negotiations between representatives of the German and Belgian governments for settlement of the long-pending marionette questions have been concluded and an agreement has been signed.

The first loans issued in British Columbia under the Canadian farm loan scheme, and it is believed the first issued in Canada, have been made through the provincial loan board.

Peping's "bello boys" went on strike because their wages were not paid on time. They did not stop work, but staged a "go slow" strike, carrying on their duties in idiosyncratic fashion, and inconveniencing patrons.

Two United States fishing vessels seized by the Canadian Government Fisheries Protection steamer "Malapina" at Goose Harbor, 100 miles south of Prince Rupert, recently were released by Mr. Justice Martin in the Admiralty Division Court.

The much debated revised prayer book of the Church of England will likely be discussed in the British House of Commons again following its endorsement by the bishops assembled in the convocations of Canterbury and York recently.

Dr. Frank L. McKinnon, well known in the medical profession, died at Winnipeg recently after a brief illness. During the war she served for four years in Mesopotamia and was decorated with the Military Cross.

World automobile production increased by more than 1,000,000 vehicles in 1928, as compared with 1927, and set a new record total output for the industry, according to a report of the U.S. Department of Commerce. In 1928, Canada produced 242,382 cars, as compared with 179,654 in 1927.

Arson Spirio, famous co-operative marketing expert from the United States, will again tour Saskatchewan this summer to the interest of a 100 per cent. membership for the Wheat Pool. The tour will start the latter part of August, according to a brief telegraphic dispatch received. Mr. Spirio's voice broke down during a recent tour of the West.

Growth Of Co-Operation

Catching The Vision Of Things That

Might and Must Be

"Co-operation is a growth and a way of living. Each day a larger and larger number of men and women awaken to the full significance of the truth that no man can live unto himself. There are still those, even in this young country, where progress is second nature, who have not been awakened. They have not yet caught the vision of things as they might and can be. They simply do not understand, and we must not be impatient even with these backward members of society."—A. J. McPhail, President of Saskatchewan Wheat Pool.

The minimum resistance to the forward motion of the wings of an airplane is obtained with a thin wing which has a low lifting capacity.

A Severe Attack of
Dysentery
Checked by 4 Doses

Mr. I. Burdwood, 629-22nd St., W. Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery and after three days' treatment with other things we decided to use Dr. Foulner's. The first dose of the little bowls had moved twenty-three times in eleven hours, but after four doses of Dr. Foulner's the child was relieved, and the attack was checked. We have always kept a bottle of Dr. Foulner's handy at all times. This medicine has been on the market for over 50 years; put up only by The T. Milliken Co., Ltd., Toronto, Ont."

Dr. Foulner's is the latest find. We wonder if wedding rings will carry a no-blowout guarantee.

W. N. U. 1798

Japan Favors Canadian Wheat

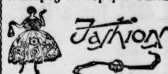

Wheat From Dominion Has Sup-
planted U.S. Product In
Japanese Market

Quality and price are the factors which have enabled Canadian wheat to completely supplant the United States produce in the Japanese market, declares Tachibana Shoda, president of the Nishin Flour Mills Company, Limited, who was in Vancouver in the course of a trip of inspection which will take him to the wheat centres of Canada, United States and Europe.

The company which Mr. Shoda heads imports an average of 250,000 tons of Canadian wheat annually. It is all shipped through Vancouver.

Manchurian wheat offers no serious prospect as a possible rival to Canadian wheat in the Japanese market, according to Mr. Shoda, on account of the uncertainty of deliveries, lack of handling facilities and absence of organized grading.

Winnipeg Newspaper Union

MONIED LINES

An attractive printed silk crepe with smart uneven hemline in handkerchief shape, with shawl collar, for the larger woman is seen in Style No. 230. The model is wearing a French V at front to break the width. It is finished with a wide, wide forming a becoming square neckline. It is especially lovely in print crepe for more formal occasions. Flat silk crepe, crepe silk, georgette crepe, crepe Elinburgh and cotton-fulle crepe are smart suggestions. Pattern is designed in sizes 16, 18, 20 years, 34, 36, 40, 42, 44 and 46 inches bust measure. Size 36 requires 1 1/2 yards of 40-inch material with 1/2 yard of 10-inch contrasting. Price 25 cents in stamps or coin (coin preferred).

CAPTURES CHAMPIONSHIP

Helen Wills, who won the women's single championship at Wimbledon, England, defeating Helen Jacobs, her fellow Californian, in straight sets, 6-1, 6-2.

Cross Crossings Cautiously

National System Starts Drive To

Control Level Crossing Accidents

As a further effort in the campaign to reduce crossing accidents, the Canadian National Railways, A. Booth, have distributed two thousand copies of a special card from the lithographed face of which, is an appeal to motorists, and others, to "Cross Crossings Cautiously." These posters are being sent out from the headquarters of the three regions in Canada, at Montreal, Toronto and Winnipeg. Atlantic, Central and Western, respectively, so that every Canadian National grade crossing in the Dominion will be marked. The instructions are to place these posters on poles close to the railway crossings and on the right hand side of approach.

In the letter of instructions it is stated: "The time is now opportune when aggressive methods must be taken to combat the increasing number of highway accidents."

Abolish Corporal Punishment

Juvenile Offenders In Britain May

Escape Birch Rod

Youthful law-breakers in England will no longer have to fear the birch rod if a movement to abolish corporal punishment for young offenders is successful.

W. Clarke Hall, London police court judge, explained his opposition to the widespread practice of "birching" at a conference of 70 judges and presented a report showing that 80 per cent. of the boys who had been whipped on certain occasions came back again charged with similar offences.

Prosperity Reflected

Marked Growth Is Evidenced On All

Sides In City Of Regina

In a booklet issued by the Regina Board of Trade, dealing with statistics of the city as revised on June 1st, marked growth is seen on all sides in the capital of the province. Building permits for the first five months of the year reached a total of \$4,599,772 as compared with \$1,560,855 for the corresponding period of 1928, while bank clearings, postal revenue and other such indices to prosperity all reflect prosperity and expansion.

Registered Seed

It is hoped to have the plant of the Saskatchewan Registered Seed Growers' Limited, on South Hill, Moose Jaw, ready to handle the registered seed from the 1929 crop. This follows the passing of estimates in the House of Commons, on behalf of the Department of Agriculture, of \$150,000 for the seed cleaning plant and warehouse at Moose Jaw.

The Columbia Ice Field

The melting waters from the Columbia Ice Field in Jasper National Park, Alberta, feed the sources of three historic rivers in the Canadian west, the Athabasca, the Saskatchewan, and the Columbia, which flow to three separate oceans.

More than half the arable land in Japan is in rice.

Most of the bacon eaten in Britain is imported from Denmark.

SUNDAY SCHOOL LESSON

JULY 28

THE STORY OF DANIEL

Golden Text:—They that are wise shall shine as the brightness of the sun; and they that turn many to righteousness as the stars for ever and ever.—Daniel 12:3.

Readings:—Daniel 1:1-21; 2:13-19; 4:10; 7:28; 8:15-18; 9: 20-23; 10:3-19; 12:8.

Devotional Reading: Psalm 46.

Explanations and Comments

The First Captives Taken To Babylon, 1:1-2.—It was in the third year of Jehoiakim's reign, 606 B.C., that Nebuchadnezzar, King of Babylon, first besieged Jerusalem and carried back with him to the land of Shinar (the old name of Babylon, Gen. 10:10), Jewish captives, together with some of the treasures of the temple which he then had placed in the treasure-house of his god Mar-duk. Among the captives were Daniel and three other youths of our lesson. Daniel belonged to a family of high rank in Jerusalem, and, according to Jerome, was at this time only a boy.

The Training Of Daniel And His Companions In Babylon, verses 3-7. Nebuchadnezzar directed Ashpenaz, the master of his convicts, to take the Jewish youths of noble birth to the palace and to have them educated in the language and wisdom of the Chaldeans. The king also directed that the youths were to be nourished with a portion of the food and wine which were prepared for himself. After three years they were to become his attendants.

Among the youths selected were Daniel and three companions, Hananiah, Mishael, and Azariah. Daniel's name meant "God is Judge"; Hananiah, "Jehovah is gracious"; Mishael, "Who is what God will"; and Azariah, "Jehovah has helped." Ashpenaz called them instead Belshazzar, Shadrach, Meshach, and Abed-nego, giving them names which meant "I am thought, I am reference to Babylonian deities."

For First Offenders

Attorney-General Of Ontario In

Favor Of More Frequently

Suspending Sentence

The Attorney-General of Ontario, Hon. W. H. Price, would enlist the sympathy of judges and others in favor of more frequently suspending sentence on first offenders. After a long and varied experience it is his opinion that lives are frequently wrecked by court sentences for offences against the laws that are really not very serious character. It is undoubtedly true that once a boy or man has the stigma of conviction against him he is badly handicapped in the race of life. Mercy is not being asked for those hardened in crime, but for those who have committed their first fault. One cannot but sympathize with the idea.

A woman first sheds a few tears—and then proceeds to open the telegram.

A spool of thread was unknown 125 years ago.

Michigan has by far the greatest coast line of any state.

No jumpy feeling
NOW when I drive
through
traffic

Nothing relieves tension as effectively as Wrigley's. The act of chewing, as motorists have discovered, has a gentle soothing effect. The beautiful cleanliness of Wrigley's refreshes the mouth and soothes the nerves.

Judgment Is Reserved

Privy Council Withholds Decision On

Domestic Fisheries Act

The judicial committee of the Privy Council reserved judgment on the appeal of the Dominion of Canada from a ruling of the Canadian Supreme Court which held that sections 7a and 1b of the Canadian Fisheries Act of 1914, were ultra vires of the Dominion parliament.

The important point at issue is whether under the British North America Act which gives it power to legislate "on sea coast and inland fisheries" the Dominion parliament can set up a system of licensing of fish canners as it sought to do under the sections of the act.

The provinces of British Columbia, Quebec and Ontario, are respondents in the action as well as British Columbia fishermen of Japanese origin.

Towns Form Boards Of Trade

"There is no better evidence of faith in a district than the example of its business men forming a Board of Trade to advance its welfare," says a statement issued by the Department of Commerce. "During the last month, boards have been organized at the following towns: Thurland, H. Baker, Secretary; Kinross, C. E. Field, Secretary; and Slave Lake, A. Peart, Secretary."

Record Of Fire Losses

Fire losses in Canada during the week ended July 10, 1929, are estimated by "The Monetary Times" at \$239,500, as compared with \$139,200 for the previous week, and with \$264,700 for the corresponding week of last year. From January 1, 1928, fire losses totalled \$11,135,500, and from January 1, 1929, to July 10, 1929, they were \$2,876,250.

More than 1,500 ships were felt during the Japanese earthquake of 1923, which took a toll of 200,000 lives.

WINDOLITE

The Improved
Glass Substitute

COMES WITH A MESSAGE OF HEALTH

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light hit strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, homes, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—does not warp or warp—will not fade and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 oz., while a square yard of glass of ordinary thickness, weighs about 135 to 140 oz. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b. Toronto.

USES WINDOLITE and let YOUR PLANTS and YOUR CHICKENS and YOUR CATTLE

GERMANY TO ACT AS INTERMEDIARY IN EASTERN CRISIS

Berlin.—The German government has agreed to take over the interests of China in Russia, and Russia in China, for the period in which direct diplomatic relations between those countries remain disrupted. It was emphasized on all sides that this was a certain indication of the administration of the Chinese Eastern Railway.

Requests for its good offices came to the foreign office from Russia through the German ambassador at Moscow, and from China, through the legation of that government here.

The break between Russia and China over the Manchurian situation has been a diplomatic activity with the German government's agreement take charge of Russian interests in China and Chinese interests in Russia.

Nanking.—Formal notification of Russia's decision to cease relations with China was received at Nanking in a second note from Moscow, which carried out the warning of the first Russian note of July 13.

President Chiang Kai-shek summoned an emergency conference of Nationalist government leaders to consider the Manchurian question. A receipt of a telegram from Governor Chang Hsueh-Liang that "the situation is extremely grave" in view of the Russian troop concentration along the frontier.

The Nationalist government had apparently not lost hope of reaching amicable settlement with Russia. Japan was possibly prepared to intervene between Russia and China in the interest of peace in the Far East. Premier (Hasegawa) and Foreign Minister Shide Hara, while not "officially" informed of developments, were silent on the situation as conveyed in the press reports.

Moscow newspapers continued strong disapproval of the Chinese reply to the original Russian note.

Seattle Water Front Fire

Union Pacific Dock Is Completely Destroyed By Flaming Fire
Seattle.—In Seattle's biggest water front fire since 1914, the Union Pacific dock was completely destroyed, with damage estimated at \$1,000,000. Six injured firemen were recovering from burns and suffocation at the Providence Hospital.

The fire started beneath the flooring on the Bay end of the dock. Apparatus was drawn from twenty platforms to fight the blaze, and traffic stalled on business streets while engine and truck companies roared on the dock. The fire broke out at the city's three fire boats were also called out.

File Incorporation Papers

Three Montreal Spinners Form Corporation With \$200,000 Capital
Sacramento, Calif.—Three spinners who declared, of Montreal, Province of Quebec, Canada, have filed articles of incorporation with Secretary of State Frank C. Jordan. The papers entitle them to engage in any kind of business from building railroads to publishing newspapers under the name of the Plaza Service Corporation, on a capital of \$20,000.

The young ladies who legally will, they say, spinners, are Misses Ella Delavore, Stella Cormier and Jessie Dickson.

Will Rescue Stranded Airman

Ottawa.—The department of marine has made arrangements to have the Canadian government vessel "Acadia" call at Port Burwell in ten days and take off the stranded airman. The "Acadia" is a Canadian cargo vessel which is stranded there following the destruction of the "Acadia" by a fire which took the vessel to Fort Churchill.

Four Die In Fire

Cornwall.—Explosion of a coal-oil stove is believed to have caused a fire which swept five residences on Guy Street, East Cornwall, causing the death of four persons who were trapped in the burning building and injured four others. Property loss is estimated at \$25,000 to \$30,000.

Expect Larger Apple Crop

Ottawa.—Canada will have a big apple crop this year. The commercial crop is expected to be 11 per cent greater than last year, and 20 per cent greater than the five-year average with a total of 3,600,417 barrels.

W. N. U. 1795

London Railway Electric

Railway Is Planned

Scheme Would Employ Fifty Thousand Men For Ten Years
London, Eng.—The Observer says that the committee on English channels and communications, which will report late this year, probably will outline plans for an electric railway from London to Paris at an estimated cost of \$300,000,000.

The reported plan calls for a road which it would take 50,000 men ten years to build.

The plan contemplates twin tunnels under the English Channel. The Observer said, each 23 feet in diameter and 44 miles long. The line would use a railway track on the first-footing of the tunnel.

Tremendously powerful electric locomotives would be used to haul trains from London to Paris in the rapid time of 2 hours and 45 minutes, if the plan outlined by the newspaper is carried out.

Will Head New Bank

Hon. Sir Robert Borden Elected President of Barclay's Bank, Canada

Montreal.—The Hon. Sir Robert Borden, former prime minister of Canada, was elected president of Barclay's Bank, Canada, at the first meeting of the shareholders held here.

Sir Robert will assume his new duties on July 1st, when the bank will commence business. Arthur B. Purvis was elected vice-president, and J. R. Booth was appointed manager.

In addition to Sir Robert and Mr. Purvis, the following were elected to the board: J. R. Booth, J. A. Tancher, premier of Quebec; H. A. Magee, W. O. Stevenson, H. P. Alton, and J. S. Crossley.

Lower Potato Crop

Canadian Average Shows Five Per Cent Decrease From 1928

Ottawa.—The Canadian potato average indicates a five per cent decrease from 1928 figures, with 588,000 acres as compared with 599,062 acres last year. Western provinces are practically the same acreage while Ontario, Quebec and the Maritimes all report slight to fairly heavy decreases. In British Columbia a good crop is anticipated. In the prairie provinces dry weather conditions are creating fears that the potato crop will be light this year.

Defer Driving Golden Spike

Ottawa.—The golden spike which will mark the completion of the Canadian Pacific Railway will be driven this year after all. Chief Engineer Cowiok, of the Canadian National Railways, has returned from inspecting the railway and reports that a million yards of ballast must still go down, and it will be impossible before this work can be carried out. It will be 1929 before the railway can be considered as completely to tidewater.

No Cause For Alarm

Edmonton.—General conditions in the west do not give cause for any alarm over the danger of unemployment this winter, was the opinion expressed by Hon. Robert Forke, federal minister of immigration, on reaching here from the East. He was accompanied by W. J. Egan, deputy minister, and had on his program an immigration conference with the provincial government.

Griin Board Appointment

Ottawa.—The appointments in connection with the re-organization of the grain board will not be made until the first August meeting of the Dominion cabinet. Hon. James Macdonald, Minister of Trade and Commerce, made this announcement. The minister declined to intimate how many of the present board would be replaced by new men.

Many Students From West

Kingston, Ont.—Queen's summer school, in progress now, attracts students from all parts of Canada. Saskatchewan sends 23, Manitoba 3, Alberta 8, and the Columbia Falls, two from the United States and one from China. Canadian history is especially emphasized. The students enjoy the historic places in Kingston and use of Queens library.

B. C. Fire Losses Higher

Vancouver.—Fire losses in British Columbia during 1928 amounted to \$2,667,554, against \$2,622,905 in 1927, showing an increase of more than fifty thousand dollars, according to the annual report of J. A. Thomas, provincial fire marshal.

Had Miraculous Escape

Vancouver Salooman Pinned Under Interurban Car Had Hand Injured

Vancouver.—Charles Kirkbride, aged 60, a Vancouver salooman, was pinned for more than a half hour in his demolished touring car under a street British Columbia electric interurban car, but, escape with a bruised hand. The interurban had to be jacked up before he could be released.

Kirkbride was driving across the intersection when the interurban crashed into him, overturning his car and running on top of it. Although the electric car was crowded, no one on board was injured.

Kirkbride was imprisoned in the driving seat of his automobile with only his head and shoulders visible. Police agents, railway employees and ambulance men laboured feverishly to extricate him, but without success until a large jack was brought and the interurban was raised. A prisoner man directed the operations, although suffering agony because of the manner in which his hand was caught. After his release it was found at the General hospital that he had suffered no other injury.

RUSSIA BREAKS OFF RELATIONS WITH CHINA

Moscow.—Russia has broken off diplomatic relations with China.

The Soviet government made public its reply to the Chinese note, the latter having come in response to an ultimatum from Russia. In this note the Soviet Union said that all means of reaching an amicable settlement had been exhausted.

The note placed the entire responsibility for all consequences upon the Chinese government. It announced also that all Soviet diplomatic and consular officials and all government commercial representatives would be recalled at once from China.

It further declared that all Soviet officials would be recalled from the Chinese Eastern Railway; that all Russian railways and Chinese would be suspended, and that the diplomatic and consular representatives of the Russian government would be ordered immediately to leave the Union of Soviet Socialist Republics.

The Russian action in breaking off diplomatic relations with China came at the expiration of time set in an ultimatum which the Soviet Union dispatched to the Central Republic headquarters on July 12. That ultimatum gave the Nationalist government, at Nanking, three days in which to resume the action in seizing the Chinese Eastern Railway in Manchuria.

It also demanded restoration of office of the Russian officials who had been deported from their places in the railway and the liberation of all Russian nationals who had been imprisoned. By the terms of the ultimatum, the closing of Russian institutions in Manchuria, such as banks, railway union, and business syndicates was also to be rescinded.

Left to right they are: Jansen, C.F.R. pensioner; and Tom Wilson, discoverer of Lake Louise in the early eighties. The photograph was taken recently at Banff. Mr. Stephens, who now lives at Oak Lake, Man., was astonished at the changes at Banff since he first saw the place fifty years ago. Then it was a lot of mountains and had a first-class hotel and what were rough tracks through the timber are now bright paths, fine roads and railway tracks. Indians were a source of continual danger in his youth; today they are an important part of the local attraction. Mr. Wilson, like Mr. Stephens, went into the seventies, and also like him one of the original trail blazers of the Canadian Pacific Railway in the Rockies. The wonder of it all of the mountains he kept then both young as the photograph shows.

Revisit Scene of Exploits

Left to right they are: Jansen, C.F.R. pensioner; and Tom Wilson, discoverer of Lake Louise in the early eighties. The photograph was taken recently at Banff. Mr. Stephens, who now lives at Oak Lake, Man., was astonished at the changes at Banff since he first saw the place fifty years ago. MAKING TOUR OF CANADA

Rev. W. C. Poole, Chieftain of Church, Westminster, president of the World Sunday School Association, who is making a tour of Canada.

Canada Wins Kolapore Cup

Eight Marikona Recapture Famous Trophy Lost Last Year

Winnipeg.—Canada won the Imperial Kolapore Cup. Eight marikona picked from the Canadian Hockey team recaptured the famous trophy Canada lost, in 1928, by a margin of 33 points over the Marikona team, with India, Guernsey and Jersey following in that order.

The Canadian team aggregate was 1,083, while the Marikona team aggregate 1,036. The cup was shot out at three distances, 500, 550, and 600 yards.

Canada had gained a lead of 18 points at 500 yards. At the 550-yard distance their team aggregate had reached 729 points to 703 for the Marikona team.

The members of the five contesting countries at the 500-yard distance, four of the three ranges, was Canada, 390; Marikona, 342; India, 330; Guernsey, 333; Jersey, 325.

Churchill Coming To Canada

Former Chancellor Of Exchequer Will Visit Alberta Oil Fields

Calgary, Alta.—Rt. Hon. Winston Churchill, former chancellor of the exchequer of Great Britain and occupant of other important cabinet posts in the Old Country will visit Calgary for three days in August. He will arrive here on August 24, and will remain until August 27. He will then proceed to Banff for a brief visit before going to the coast. This information was received through private sources.

He will visit Turner Valley oil fields and possibly some of the coal areas in the Calgary district.

Torrential Rains In Idaho

London, Eng.—Excessive telephone dispatches from Bombay said widespread floods were reported in the Sind division of that province. At Sukkur Barrage the entire town has become submerged, with 12 deaths. In Middle Sind hundreds of villages had been cut off by the rain. Miles of desert have been transformed into a huge lake.

Winnipeg.—Not more than 25 per cent of the harvest help that awaited the westward to assist in harvesting a bumper crop will be required this year to clear a comparatively small showing of grain, a promising crop indeed last spring, but one that has suffered from the ravages of a boiling sun, continuous waves of intense heat and lack of moisture.

Where a force of 50,000 husky, young men from the Eastern Canadian provinces, augmented by several thousand young Englishmen brought overseas for the purpose, were put to work last year harvesting thousands of acres of wheat, probably 10,000 and certainly not more than 15,000 will be so much to work in the west's heat-stricken fields next month. This was an estimate given recently by J. A. Bowman, general superintendent of employment for Manitoba, when interviewed by the Canadian Press.

The unemployment situation throughout the west is not considered serious, in the opinion of Mr. Bowman. Hundreds of men are working in Winnipeg and other centers at the present time, he said, but the situation was not at all unusual. No difficulty is anticipated by Manitoba unemployment bureau in placing hundreds of available men now here when harvesting gets under way.

He added that only a small number of outside help would be needed if dry weather that is now prevailing in all three prairie provinces continues for another week.

Government Is Powerless

Cannot Refuse Clearance To Liquor Boats Under Present Law

Ottawa.—The matter of refusing clearance to liquor-laden boats destined to the United States is not within the competence of the federal government as the law stands at present, for can it come within that competence until authority for such a course has been given by act of parliament.

This was the statement of Hon. W. D. Eider, minister of national revenue, in an interview. "I adhere to the sentiments expressed on this subject last session, and I am convinced that subsequent developments have borne them out."

Reviews Boy Scouts

Premier King Addresses Contingent Going To International Jamboree

Ottawa.—Canada's Boy Scouts contingent to the International Jamboree opening at Birmenham, England, July 27, was reviewed on Parliament Hill by Premier W. L. Mackenzie King, leader and representative of every province of Dominion and the Yukon Territory.

In the Hall of Fame, in the parliament building, the Prime Minister made an inspiring appeal to the youth of this country for a full recognition of citizenship in this Dominion and in the Empire.

Postpones Atlantic Flight

Unlikely That Cote Will Make Attempt This Year

Paris.—It appeared improbable here that Dieudonne Cote would make another attempt to fly across the Atlantic this year. He has now abandoned his plan, but when asked when it might be carried out he replied laconically: "There is no flight." The backers of the flight, who built the aeroplane and its motors, have been silent concerning a flight which gave support to the growing belief that it was not likely to be in 1929.

Berlin-London Television Service

London, Eng.—Within two or three months a telegraphic transmission service for photographs, pictures and similar matter, will be opened here between London and Berlin for the general public. This announcement was made in the House of Commons by Hon. B. L. Lees-Smith, postmaster-general.

Preparing For Trip

Friedrichshafen, Germany.—Dr. Hugo Eckener has stated, definitely, that the next flight of the dirigible Graf Zeppelin, to the United States, has been planned for the first week in August, but that the date has not been fixed.

WILL REQUIRE LESS HARVEST HELP THIS YEAR

Winnipeg.—Not more than 25 per cent of the harvest help that awaited the westward to assist in harvesting a bumper crop will be required this year to clear a comparatively small showing of grain, a promising crop indeed last spring, but one that has suffered from the ravages of a boiling sun, continuous waves of intense heat and lack of moisture.

Where a force of 50,000 husky, young men from the Eastern Canadian provinces, augmented by several thousand young Englishmen brought overseas for the purpose, were put to work last year harvesting thousands of acres of wheat, probably 10,000 and certainly not more than 15,000 will be so much to work in the west's heat-stricken fields next month. This was an estimate given recently by J. A. Bowman, general superintendent of employment for Manitoba, when interviewed by the Canadian Press.

The unemployment situation throughout the west is not considered serious, in the opinion of Mr. Bowman. Hundreds of men are working in Winnipeg and other centers at the present time, he said, but the situation was not at all unusual. No difficulty is anticipated by Manitoba unemployment bureau in placing hundreds of available men now here when harvesting gets under way.

He added that only a small number of outside help would be needed if dry weather that is now prevailing in all three prairie provinces continues for another week.

ANNOUNCE NAVAL DISARMAMENT TERMS SHORTLY

London, Eng.—A full statement on naval disarmament negotiations between Great Britain and the United States may be made in the House of Commons before the Parliament rises at the end of July. Prime Minister Ramsay MacDonald suggested that.

The Premier said he was doing his utmost to expedite the negotiations but that he was not certain the statement would be forthcoming.

Besides discussing disarmament, the House of Commons heard from the Right Hon. T. B. Clynne, House Secretary, justly Louis Trotzky, chief Bolshevik, wasn't permitted to enter England.

Eighty King Winston Churchill, as energetic and insistent in opposition as he was a leading cabinet minister, fairly provoked the Laborite Premier into a disarmament statement.

Premier MacDonald characterized as "a thoroughly suggestive question by Churchill whether it was to be understood that a 'most grave and serious' decision of this kind is being withheld until parliament has separated." The premier explained that it was obvious the question was not in his hands alone, that a very complicated set of circumstances existed and that when one dealt with international affairs it was with a subject or a department alone.

"I hope the cabinet will not ask me to discuss the subject of disarmament," he said.

In a statement regarding Trotsky, Mr. Clynne disclosed that the British Government feared the difficulties that might arise in securing the fallen Bolshevik's leader's departure from Britain if his presence should be permitted to remain.

In some circles in Britain it has been felt that the manner of Trotsky's application for admission to England was ill-considered. He made the request immediately after the Labor Government came into power, suggesting sympathy for the new administration. At a time when their critics were searching for every opportunity to embarrass them, Labor leaders were not careful to make no gesture toward Trotsky which might be misinterpreted.

In the attitude of the Dominions toward resumption of diplomatic relations between Great Britain and Russia was again dealt with in parliament, while members pressed for more information on the correspondence between Britain and the Dominions.

Received By Prince

Professor W. L. Carlyle Visits His Employer Sir James's Palace

London, Eng.—Professor W. L. Carlyle, manager of the "E.P." reach at High River, Alta., was recently received by the Prince of Wales at James's Palace.

Nothing was said as to the conversation between the Prince and his ranch manager, but it was understood that the royal highness evinced a desire to know how the ranch was progressing. He has often intimated he was looking forward to another visit to the ranch.

May Avoid Ontario

United States Tourists Complain About Police Discrimination

Windsor, Ont.—Armed by complaints of police discrimination in Ontario against United States tourists, the Detroit American Club has sent out a circular of warning to all tourist bureaus on highways leading for Ontario, was received by Richard Harris, managing secretary of that organization. The Detroit Club has suggested use of the all-American route to the westward to avoid Ontario "if the tourists want to be sure of fair treatment," he said.

Northeast Will Appeal

San Francisco, Calif.—Counsel for Gordon Stewart Norcross, convicted slayer of little boy on the "Danville" murder train, were ordered to file briefs on his appeal before August 5, by the state supreme court.

On Ontario was received by Richard Harris, managing secretary of that organization. The Detroit Club has suggested use of the all-American route to the westward to avoid Ontario "if the tourists want to be sure of fair treatment," he said.

Poland Honors Aviator

Warsaw, Poland.—The Polish government has ordered the body of Major Ludwik Jozowski back to Poland, where honors will be paid. It was reported that he had been killed throughout Poland in memory of the aviator.

Winnipeg.—Not more than 25 per cent of the harvest help that awaited the westward to assist in harvesting a bumper crop will be required this year to clear a comparatively small showing of grain, a promising crop indeed last spring, but one that has suffered from the ravages of a boiling sun, continuous waves of intense heat and lack of moisture.

Where a force of 50,000 husky, young men from the Eastern Canadian provinces, augmented by several thousand young Englishmen brought overseas for the purpose, were put to work last year harvesting thousands of acres of wheat, probably 10,000 and certainly not more than 15,000 will be so much to work in the west's heat-stricken fields next month. This was an estimate given recently by J. A. Bowman, general superintendent of employment for Manitoba, when interviewed by the Canadian Press.

The unemployment situation throughout the west is not considered serious, in the opinion of Mr. Bowman. Hundreds of men are working in Winnipeg and other centers at the present time, he said, but the situation was not at all unusual. No difficulty is anticipated by Manitoba unemployment bureau in placing hundreds of available men now here when harvesting gets under way.

CHAMPION CHATTER

VOL. 2 Thursday, July 25, 1929 No. 13

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL

Save the Surface
The blazing sun is harder on painted machinery than rain or snow—a fact little appreciated by too many farmers. A machine shed will make a binder last anywhere from one-fifth to half again longer than another binder that has been left to stand out-of-doors. Putting money into a machine shed is the best investment you can make.

Genuine I. H. C. Repairs are made from the same patterns and of the same materials as the parts you buy in the original machine. The best way to keep your Mc-Dee farm machine up to maximum efficiency is to call on us when you need repairs.

Attach a wheel to the outer end of your gate and you will not only support the gate, thereby making it last longer, but make it easier to open and close.

Kill the weeds and make a fine compact seed bed at the rate of 12 acres a day with the Mc-Dee 12-foot field cultivator. We have them also in three other sizes.

Ask H. Tindal or T. Sletto or W. Schmelke what they think of the Mc-Dee rot weeder. After you have heard their favorable comments come in and place your order.

Here's a hot one we just heard the other day: "Could you tell me please, mister, where is the ladies' rest room?" "Escalator, madam."

Save time, money, and temper by filling your twine can with two Mc-Dee Big Balls. Every foot tight and holds tight.

Wm. Penn oils and greases "Still the Best."

"Good Equipment Makes a Good Farmer Better."

W. Farrington of Rocky Mountain House has taken a position as assistant in the Champion Meat Market.

Mrs. F. Gottenburg returned this week from a visit to Spokane.

Wednesday was one of the hottest days experienced during the summer.

Attend Wedding at Calgary

Mr. and Mrs. Geo. Harper were visitors here this week, leaving on Tuesday for Calgary to attend the wedding of Miss Genevieve Harper to Mr. Harry Lusko.

Mr. and Mrs. Orville Harper are also in Calgary to attend the wedding.

Watch the Water You Drink

The school term ended, the roads in splendid condition, the car running with a contented purr, is a combination that just naturally leads the thoughts to a camping vacation.

The people of Alberta are so fortunate in having many natural beauty spots a short ride from the back door, that this time of holiday is becoming most popular every year. It is economical and it is healthy if certain precautions are taken.

Care should be taken to find out if all drinking water is pure. If this cannot be assured then the water should be boiled or chlorinated. The latter is a very simple proceeding, any druggist will supply the lime and give the few necessary instructions.

If there is a baby or a toddler in the party who must have milk, it is a wise proceeding to pasteurize it. No one can be sure if the milk brought has come from an infection free animal.

Before diving into a likely looking hole for the morning splash be sure there are neither rocks nor roots. Do not bathe when very hot or immediately after a heavy meal. It would add to the safety of the party if at least one member could swim well.

Carry simple First Aid Kit.
Literature on First Aid can be obtained free from the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

"Why are you not working with the rest?" asked the lady visitor of an inmate in an asylum.
"I'm crazy," was the candid reply.
"But surely crazy people can work," argued the lady.
"Yes, retorted the inmate, "but I'm not so crazy as that."

It happened in the Adirondacks.
"What," demanded the deer hunter of his guide, "what is the name of the species I just shot?"
"Well, sir," returned the guide suavely, "I've just been investigating and he says his name is Smith."

Women's Institute Will Make Exhibit

The Women's Institute has appointed committees to round up the exhibit for the Carman-gay fair. If you have anything you can contribute for the purpose notify Mrs. Orville Harper, G. F. Smith, J. N. Beaubeir or The Chronicle. The exhibit consists of soil products—grains threshed and unthreshed, garden produce of every kind and also grasses. The continued dry weather will make the gathering of an exhibit a much more difficult proposition than it was last year and in consequence help will be greatly appreciated. Remember, too, that if you have possible exhibits they should be shown as individual exhibits. Champion should go on the road both in community as well as individual exhibits of soil products this year. Lend the committees your best assistance.

LOCAL AND GENERAL

Carman-gay Fair, August 8-9.

Born—to Mr. and Mrs. Alex Flecht, on Friday, July 12th, twin sons.

Miss Mary Bowman entertained a number of friends this week in honor of her father's birthday.

Barney Hummel is the prize winner on trout catches and also takes the cake when consumption is in question.

Lomond won the afternoon game at Carman-gay on Monday and dropped the second game easily. Allred pitched both games for Lomond, while Slim Haynes was in his very best form for Carman-gay in the latter game.

K. R. McLean R.O., of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, August 2nd at The Drug Store.

Found—Child's tan sweater at grounds on July 1st. Owner call at Chronicle office.

Mrs. A. Fleetwood, who has been in the Bassano hospital where she underwent an operation, is making good recovery and will be convalescent shortly.

Lost—End gate of Rugby truck, southeast of town. Finder please return to C. E. Anderson, Champion.

Work has begun on Louis Fat's residence which is being remodelled. A new foundation and basement and a stucco finish on the building is included in the work which is in charge of Alex Bialdi.

Mr. and Mrs. R. C. Crane of Calgary were visitors in town on Saturday.

Pastor and Family Have Good Trip

Lumsden Beach, Sask., July 23, 1929.
Editor Champion Chronicle:

We had a good trip here, though we travelled over some rough roads during hot weather, not a very happy combination. I was surprised to see as much crop along the road, summer-fallow standing up very well. Moose Jaw district think they have poorest season in 25 years.

Lumsden Beach is about 25 miles north of Regina, from here north for some distance crops are good.

Lumsden Beach is a very pretty quiet spot, an excellent bathing beach. I had beginners luck, catching two fine pickerel, the only two to be caught by our party last Saturday.

Kind regards,
S. R. Hunt.
